- idiopathic gynecomastia in preadolescent boys (*tip*), April, p. 167
- immunity after tetanus vaccination (*tip*), March, p. 221
- Kartagener's syndrome and deaf-mutism (*tip*), April, p. 169
- keeping immunizations up to date, *March, p. 119
- management of acute otitis media (*tip*), March, p. 203
- managing emergencies in the newborn, *March, p. 168
- Mycoplasma pneumoniae infection and central nervous system disease (*tip*), April, p. 184
- normal and abnormal sexual maturation, *June, p. 122
- obese, pediatrician develops diet program for, May, p. 192
- office management of urinary tract infections (*tip*), January, p. 209
- patterns of illicit drug use (*tip*), April, p. 180
- postoperative intussusception in (*tip*), February, p. 196
- predicting renal disease in infants with diarrhea (*tip*), February, p. 187
- prolonged rupture of membranes and RDS (*tip*), May, p. 175

- pulmonary and portal hypertension (*tip*), April, p. 172
- racemic epinephrine in infectious croup (*tip*), January, p. 210
- recovery from RDS and later pulmonary function (*tip*), March, p. 216
- reducing children's exposure to radiation (*tip*), January, p. 219
- routine chest radiography (*tip*), February, p. 192
- RSV vaccine (*tip*), January, p. 223
- rubella and measles antibody survey (*tip*), May, p. 180
- ruptured membranes and RDS (*tip*), April, p. 168
- sequelae of prematurity (*tip*), April, p. 177
- single daily dose of diphenylhydantoin (*tip*), March, p. 213
- single umbilical artery (*tip*), January, p. 222
- spontaneous closure of small ventricular septal defects (*tip*), January, p. 219
- therapy of enuresis (*tip*), April, p. 167
- total intravenous alimentation (*tip*), March, p. 205
- tracheostomy in epiglottitis (*tip*), March, p. 203
- treating hyperactive, with coffee (*info pl*), June, p. 145
- treatment of undescended testes (*tip*), March, p. 209
- urethral prolapse in young girls (*tip*), May, p. 178
- with cancer, herpes zoster in (*tip*), March, p. 221
- cholesterol hypothesis, current status of, *January, p. 145
- chromosomal radiosensitivity in chromosomal breakage syndromes (*tip*), February, p. 187
- cirrhosis, alcohol and (*tip*), May, p. 167
- clavicle joint, synthetic material used to reconstruct, March, p. 233
- coffee
 - decaffeinated (*info pl*), April, p. 156
 - treating hyperactive children with (*info pl*), June, p. 145

- colds, rhinovirus, transmission of (*tip*), March, p. 213
- communal child rearing (*tip*), March, p. 212
- constipation and urinary tract infection (*tip*), June, p. 157
- contraceptives
 - oral, folic acid reverses epithelial changes due to (*tip*), May, p. 166
 - oral, hyperlipidemia and pancreatitis with (*tip*), February, p. 204
- cricopharyngeus dysfunction, dysphagia due to, *April, p. 127
- croup, infectious, racemic epinephrine in (*tip*), January, p. 210
- CSF findings in partially treated meningitis (*tip*), April, p. 180
- cutaneous problems, common, recent therapeutic advances for, *June, p. 70
- cysts, back, removing (*info pl*), April, p. 155
- cytomegalovirus infection, congenital (*tip*), March, p. 209

d

- deaf-mutism, Kartagener's syndrome and (*tip*), April, p. 169
- dental manipulation, bacteremia during (*tip*), April, p. 185
- depression, treat patients with, don't reject them, *April, p. 108
- dialysis patient, surgical management of (*tip*), February, p. 205
- diarrhea, predicting renal disease in infants with (*tip*), February, p. 187
- digitalis
 - *April, p. 98
 - (*ed*), April, p. 75
 - and propranolol HCl, combined use of, *January, p. 178
 - influence of, on labor (*tip*), February, p. 193
- diphenylhydantoin, single daily dose of (*tip*), March, p. 213
- divorce rate has risen, study shows, April, p. 193
- Down's syndrome, family management of, during the early years, *March, p. 160
- drug abuse, lungs and, *March, p. 90

drug education, untoward effects of (*tip*), May, p. 174
drug use, illicit, patterns of (*tip*), April, p. 180
drugs

- and sports (*tip*), March, p. 204
- prescription, PMA proposes stronger controls over, June, p. 177

dyskinesia, tardive, *May, p. 101
dysphagia due to cricopharyngeus dysfunction, *April, p. 127

e

edema in pregnancy, treating (*info pl*), June, p. 146

editorial integrity (*ed*), January, p. 81

education

- cancer, telephones will be used for, January, p. 237
- on patient care costs, Illinois M.D. says doctors need better, January, p. 242

educational health programs will be shown on national television, January, p. 240

elderly, coronary artery surgery in (*tip*), January, p. 222

elderly patients, quinidine in, *May, p. 127

emergencies in the newborn, managing, *March, p. 168

enuresis, therapy of (*tip*), April, p. 167

epiglottiditis, tracheostomy in (*tip*), March, p. 203

epithelial changes due to oral contraceptives, folic acid reverses (*tip*), May, p. 166

f

family physicians

- encouraged to write for *AFP* (*ed*), February, p. 81
- Sweden suffers shortage of, May, p. 201

family practice and general practice (*ed*), April, p. 69

finger injuries, hand and, treating acute, *May, p. 74; June, p. 100

flat foot deformity, *February, p. 143

flower vases as sources of pathogens (*tip*), June, p. 169

folic acid reverses epithelial changes due to oral contraceptives (*tip*), May, p. 166

football helmet, new, designed by University of Michigan researchers, March, p. 232

fungus infections, superficial, *January, p. 162

g

gastrointestinal bleeding

- arteriography and infusion for (*tip*), May, p. 171
- massive (*tip*), March, p. 222

gastrointestinal tract, serotonin and (*tip*), May, p. 179

gastroschisis (*tip*), April, p. 169

genocide, fears of (*tip*), June, p. 171
Gilles de la Tourette's syndrome, *June, p. 94

glaucoma, *January, p. 125

glucagon in hypovolemic shock (*tip*), February, p. 192

goiter, simple, chronic lymphocytic thyroiditis and (*tip*), May, p. 166

growth in childhood thyrotoxicosis (*tip*), April, p. 176

guaiac, stool, as a routine screening test (*info pl*), June, p. 146

gynecomastia, idiopathic, in pre-adolescent boys (*info pl*), April, p. 167

h

H. influenzae pneumonia (*tip*), February, p. 200

hand and finger injuries, treating acute, *May, p. 74; *June, p. 100

head trauma patients, noninvasive evaluation of (*tip*), January, p. 226

health care, better, hospitals share services to provide, February, p. 222

health care costs, higher, says delegation of responsibility has led to, February, p. 217

health care problems (*ed*), March, p. 79

heart

— aneurysms of the left ventricle (*tip*), June, p. 161

— cardiac disease in children (*tip*), February, p. 206

— cardiac involvement in rheumatoid arthritis (*tip*), June, p. 157

— coronary artery surgery in the elderly (*tip*), January, p. 222

— digitalis, *April, p. 98

— disease, computer used to diagnose, May, p. 196

— disease, coronary, behavior patterns, stress and, *April, p. 117

— disease, phlebotomy and cyanotic (*tip*), January, p. 218

— early detection of vascular disease, *February, p. 150

— effects of hard and soft water on cardiovascular disease (*info pl*), April, p. 155

— how long should the patient with acute myocardial infarction be hospitalized? (*ed*), February, p. 81

— hyperlipemia and early myocardial infarction (*tip*), May, p. 180

— left ventricular hypertrophy in apparently normal children (*tip*), February, p. 201

— NBT test in acute myocardial infarction (*tip*), February, p. 197

— persistent left superior vena cava (*tip*), May, p. 179

— sound, extra, *June, p. 79

— sound, fourth, with no cardiac disease (*tip*), May, p. 165

— spontaneous closure of small ventricular septal defects (*tip*), January, p. 219

— volume expansion in acute myocardial infarction (*tip*), June, p. 165

hemodialysis, chronic, hyperparathyroidism in patients on (*tip*), May, p. 170

hepatitis

— fulminant viral, and hepatic failure, *May, p. 110

— isoniazid (*tip*), February, p. 197

hernia, spigelian (*tip*), June, p. 168

heroin, Harvard professor calls for 'controlled legalization' of, June, p. 180

herpes zoster in children with cancer (*tip*), March, p. 221

hiatal hernia (*tip*), January, p. 218

hip, congenital dislocation of, *February, p. 88

histamine release, *February, p. 168

Hodgkin's disease, laparotomy for (*tip*), June, p. 157

'homosexuality' is not a disease, APA declares that, March, p. 234

Horner's syndrome, *June, p. 140

hospitals, for-profit (*ed*), April, p. 69

human growth hormone effective in treatment of stunted children, April, p. 196

hydrothorax after central catheterization (*tip*), April, p. 173

hyperactive children, treating, with coffee (*info pl*), June, p. 145

hyperlipemia and early myocardial infarction (*tip*), May, p. 180

hyperlipidemia and pancreatitis with oral contraceptives (*tip*), February, p. 204

hyperparathyroidism

—in patients on chronic hemodialysis (*tip*), May, p. 170

—primary (*tip*), June, p. 160

hypertension

—doctors discuss, on television special, April, p. 201

—due to a renin-secreting tumor (*tip*), January, p. 223

—pulmonary and portal (*tip*), April, p. 172

'hypertension hotline' scheduled for May 14 and 15, May, p. 206

hypovolemic shock, glucagon in (*tip*), February, p. 192

i

IHSS, familial prevalence of (*tip*), February, p. 205

immunizations, keeping, up to date, *March, p. 119

intensive care unit, mobile, in use in New York, February, p. 218

interview techniques for diagnosing alcoholism, *March, p. 107

intravenous fluids, antibiotic stability in (*tip*), February, p. 196

intussusception, postoperative, in children (*tip*), February, p. 196

Iowa cancer research, results of, are discussed, January, p. 241

isoniazid, excretion of, in renal insufficiency (*tip*), May, p. 165

isoniazid hepatitis (*tip*), February, p. 197

j

k

Kartagener's syndrome and deaf-mutism (*tip*), April, p. 169

l

laparotomy for Hodgkin's disease (*tip*), June, p. 157

laryngeal carcinoma, asbestos and (*tip*), January, p. 227

lasers in ophthalmology, *May, p. 118

lead levels in blood, new instrument measures, in less than three minutes, May, p. 199

lead poisoning

—childhood, a preventable disaster, *January, p. 136

—in children (*ed*), January, p. 85

learning disabilities, pediatrician discusses children with, March, p. 233

leukemia, previous radiation exposure and (*tip*), May, p. 171

lung, small cell carcinoma of (*tip*), March, p. 222

lung carcinoma, parental age and survival from (*tip*), March, p. 208

lungs and drug abuse, *March, p. 90

m

malformations, congenital, following viral infections (*tip*), May, p. 170

measles antibody survey, rubella and (*tip*), May, p. 180

measles vaccination in the first year (*ed*), January, p. 87

medical costs cut by new surgical facilities, January, p. 237

medical school, basic sciences in (*ed*), January, p. 85

medical school applications, will study new method of handling, February, p. 215

medicine in the Common Market countries (*ed*), May, p. 69

medicines, Chinese, offered in a catalog, February, p. 223

meningitis, partially treated, CSF findings in (*tip*), April, p. 180

mental status examination, *February, p. 109

mesenteric infarction (*tip*), April, p. 177

Mills-Kennedy NHI plan, fee payments under, June, p. 186

minimal brain dysfunction, pediatrician discusses, April, p. 193

mobile chair can be used on rough or smooth ground, March, p. 235

monograph, *AFP's first* (*ed*), January, p. 81

Monograph:2 (*ed*), June, p. 61

movie industry ratings (*ed*), June, p. 63

movie theatre 'Christmas' attraction (*ed*), April, p. 71

mycoplasma pneumonia

—atypical (*tip*), April, p. 173

—radiographic study of (*tip*), March, p. 203

myocardial infarction

—acute, NBT test in (*tip*), February, p. 197

—acute, volume expansion in (*tip*), June, p. 165

n

naloxone for narcotic overdose (*tip*), January, p. 214

national health insurance doesn't solve problem, Blue Shield president says, January, p. 235

NBT test in acute myocardial infarction (*tip*), February, p. 197

nephrolithiasis, phosphate treatment of (*tip*), January, p. 215

nephropathy, analgesic (*tip*), March, p. 208

nephrosclerosis, malignant, nephrectomy and transplant for (*tip*), January, p. 211
nutrition teams provide health care, February, p. 221

O

oat cell carcinoma, therapy for (*tip*), February, p. 192
obstetrics

- anesthesia for uncomplicated obstetric delivery, *January, p. 113
 - cancer of the breast during pregnancy or lactation (*tip*), April, p. 184
 - influence of digitalis on labor (*tip*), February, p. 193
 - managing incomplete abortion, *May, p. 136
 - pregnancy and neurologic disease (*ed*), February, p. 83
 - prolonged rupture of membranes and RDS (*tip*), May, p. 175
 - prostaglandins in induced abortion (*tip*), February, p. 193
 - ruptured membranes and RDS (*tip*), April, p. 168
 - treating edema in pregnancy (*info pl*), June, p. 146
- ophthalmology, lasers in, *May, p. 118
osteodystrophy, renal, parathyroidectomy in (*tip*), March, p. 220
osteogenesis imperfecta, calcitonin used to treat, April, p. 191
otitis media, acute, management of (*tip*), March, p. 203
overdose, narcotic, naloxone for (*tip*), January, p. 214

P

pain patient, *March, p. 130
pancreatitis, hyperlipidemia and, with oral contraceptives (*tip*), February, p. 204
parathyroidectomy in renal osteodystrophy (*tip*), March, p. 220
parental age and survival from lung carcinoma (*tip*), March, p. 208
Parkinson's disease, clinical features of (*ed*), March, p. 83
parotidectomies, subtotal (*info pl*), May, p. 153

"Information
Please"
informing

Occasionally you encounter a particularly thorny case... one that defies diagnosis or treatment. Next time one arises, send the data on it to the AFP Editorial Department. We will pass it on to a member of our Editorial Advisory Board and publish it (space permitting) in AFP's regular department, "Information Please."

Whether or not the case actually appears in print, your confidence is respected and your anonymity preserved.

Send your question, marked "Information Please," to:

AFP Editorial Department
